

700 Series Minisprinkler

Dynamic Mini Sprinkler for Greenhouses and Nurseries

Excellent Performance with Uniform Water Distribution

DIG's 700 series insect-proof, dynamic mini sprinkler offers excellent distribution uniformity for irrigation of seedlings, mature trees, and under orchard canopies. The sprinkler is available with seven, color-coded flow rate bases and varying configurations to fit a wide range of applications.

Features

- Excellent performance with uniform water distribution
- Press-fit configuration for easy maintenance
- Head closes downwards after operation, preventing dirt and insects from entering the mini sprinkler (insect-proof)
- Firm construction without a bridge gives a complete 360° circle
- Made of high-impact plastic material to withstand chemicals and all weather conditions
- Features dynamic, self-cleaning, vibrating operation that prevents accumulation of deposits, making it suitable for irrigation with water containing iron and calcium
- Available on 1/2", 10-32 thread or completely assembled with 13" spike, 24" or 36" (.160" ID x .270" OD) micro tubing and barb
- Can operate in an inverted position to reduce wetting diameter for young trees

Applications

- Suits all applications of seedling and young sapling irrigation
- Good for under tree canopies
- Ideal for orchards, greenhouses and nurseries

Benefits

- Low precipitation rate for any soil structure
- Can be used for frost protection and cooling

700 Series Minisprinkler

Dynamic Mini Sprinkler for Greenhouses and Nurseries

Performance and Technical Data

- Flow rates: 10-42 GPH (40 l/h - 160 l/h)
- Diameter of coverage: 6' - 17' (1.8 m - 5.1 m)
- Operating pressure: 25 - 35 PSI (1.7 - 2.4 Bar)
- Operating pressure in overlapping irrigation:
- 35 PSI (2.4 BAR)
- Pattern: 360°
- Trajectory angle: Approximately 8° to 10°
- Filtration requirements: 80 to 120 mesh depending on flow rates and water quality
- Material: polyacetal

How to specify

Model	Description
52-700-xx-0	Mini sprinkler on 1/2" FNPT base
52-700-xx-24	Mini sprinkler assembly with 24" micro tubing, .270 OD barb and weight
52-700-xx-36	Mini sprinkler assembly with 36" micro tubing, .270 OD barb and weight

Accessories

The 700 series mini sprinkler has a range of accessories for complete assembly that includes 1/2" bases, micro tubing assemblies and stakes

Flow rate & diameter							
Model	52-700-10	52-700-15	52-700-18	52-700-24	52-700-27	52-700-32	52-700-42
